Infinity

INFINITY -∞+

PENTAGRAM Infinity series offer wide line of high capacities Nickel Metal hydride (Ni-MH) rechargeable batteries. Advanced technology design meets all requirements of high-drain digital devices such as digital cameras, mp3 players, dv cameras, electric toys and other electronic gadgets.

They have no negative memory effect and are environmentally friendly (batteries contain no cadmium). PENTAGRAM Infinity accumulators do not carry so called "memory effect" which means they can be charged at any time without loss of capacity (they do not have to be totally discharged before charging). Long-lasting PENTAGRAM accumulator can be recharged up to 1000 times.
