PENTADrive

PENTAGRAM PentaDRIVE is the perfect solution for data storage that combines advantages of flash memory and USB 2.0 interface. Device provides an easy way to quickly access and transfer all types of files. Rubber case protects electronics and data from effects of impacts, shocks, and high temperatures. PentaDRIVE is waterproof and can withstand many hours of floating. It is recognised by desktops and notebooks as a replaceable drive, no software required (Windows ME/2000/XP).
