technical support	via e-mail and www

box contents	
	1. Fang Slim
	2. CD with software and english manual

Technical details might differ from those written above without previous notification.

FANG

Bluetooth is a wireless technology for interconnecting a broad selection of electronic devices including desktop PCs, keyboards, laptops, mobile phones, printers, etc. PENTAGRAM Fang Slim operates in the unlicensed ISM band at 2.4 GHz offering transfer rate up to 1 Mb/s and opening range up to 20 meters. Bluetooth technology provides wireless security through data encryption and authentication, replacing a maze of cables.
